Product End-of-Life Instructions

Product Range: Back-UPS®

Marketing Model/Name: (List of multiple models if applicable)

Back-UPS® - “Tower” Style – BK 200/300/325/475/500/650/1000
Back-UPS® - "Surge" Style – BE 325/350(G)/400/450(G)/500/525/550/600/650(G)(G1)/700
Back-UPS® - BH/BI/BH/BI/BZ 500/650/800/850/1000/1250
Back-UPS® - BR 500/600/650/800/1000/1100/1200/1300/1500
Back-UPS® - BX 550/650/800
This Includes country specific designations and 120V, 230V, 100V products

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note:
This product family is in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE). This product range contains a battery pack that is in the scope of EU directive 2006/66/EC of 26 September 2006 (Battery Directive).

Size in mm: 86 x 180 x 284

Weight in kg: between 4.7 and 13.6 including packaging.
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy: Reuse → Separation for special treatment → Other dismantling → Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

Disassembly Instructions:

1. Remove the battery from the product per the instructions provided. Be careful, the battery may be heavy. The batteries carry an electrical charge that represents a safety hazard that can result in severe injury.

2. Battery Packs are recommended to be shipped to recyclers as whole units.

3. Shear the power cord from the Uninterruptible Power Supply (UPS). Place the power cord into the appropriate recycling waste stream.

4. Disassemble the housing by removing fasteners. Place housing into appropriate recycling waste stream (plastic).

5. Remove the Printed Circuit Board Assembly, Wire Harnesses and Transformer and place into appropriate recycling waste stream.

Back-UPS product range consists of the following typical parts: (1) Power Cord, (2) Battery Pack (RBC), (3) Plastic housing parts, (4) Printed Circuit Board Assembly (PCBA), (5) Miscellaneous Wire Harnesses, (6) Transformer, and (7) Miscellaneous Fasteners.
