

Vertical or Horizontal Wall-mount Template

Use screws that are appropriate for the weight of the unit and the mounting surface. See the Specification section of the Back-UPS ES 450G/550G user guide for more information.

1. Hold the template against the wall surface and use a nail or pin to mark the center of each hole.
2. Install a screw into the wall at the marked locations. Allow 8 mm of the screw to protrude from the wall (screws not supplied).
3. Hang the unit on the wall, using the installed screws.
