<tbody>
<tr>
<td>带测量及开关功能的支架式电力分配系统/ Rack Power Distribution Unit-Metered, Switched</td>
<td>AP79XX</td>
<td>853710</td>
<td>IEC60950</td>
</tr>
</tbody>
</table>

注意：型号名可能追加字母或/以及数字，该型号对安全无影响。
Note: Models may be followed by any additional number(s) or/and letter(s), denoting non-safety related options.

产品描述（包括适用场所）Product Description (utilization of product):
该产品为电源配电单元，用于服务器室和布线柜，可远程控制电源开关及工作电流测量。
All of the products are power distribution unit used for Server Rooms and Wiring Closets. The products are power distribution units with outlet remote power on/off control, and active current measurements.

确认意见Conclusion:
基于产品描述，上述型号的带测量及开关功能的支架式电力分配系统不在目前的中国强制性产品目录内，并已超出中国强制性产品范围。
According to the product description, we declare above models do not correspond with Catalog of Products Subject to CCC and are determined to be out of scope for CCC currently.
